

# 4435.0756 Datasheet

DiGi Electronics Part Number 4435.0756-DG

Manufacturer SCHURTER Inc.

Manufacturer Product Number 4435.0756

Description TA35 CIRCUIT BREAKER 1P RO 6A

Detailed Description Circuit Breaker AC DC

https://www.DiGi-Electronics.com

Tel: +00 852-30501935

RFQ Email: Info@DiGi-Electronics.com

DiGi is a global authorized distributor of electronic components.

# **Purchase and inquiry**

| Manufacturer Product Number: | Manufacturer:   |
|------------------------------|-----------------|
| 4435.0756                    | SCHURTER Inc.   |
| Series:                      | Product Status: |
|                              | Active          |

# **Environmental & Export classification**

| RoHS Status:    | Moisture Sensitivity Level (MSL): |  |
|-----------------|-----------------------------------|--|
| ROHS3 Compliant | Not Applicable                    |  |
| ECCN:           | HTSUS:                            |  |
| EAR99           | 8536.20.0020                      |  |

#### Circuit Breaker for Equipment thermal, Rocker actuation, 1 pole

Non-illuminated black

illuminated Green transparent

#### See below:

#### **Approvals and Compliances**

#### **Description**

- Thermal circuit breaker
- 1-pole
- Snap-in version
- Positively trip-free release
- Method of operation acc. to IEC: S-type
- Different rocker colours
- Wide current range

## **Unique Selling Proposition**

- Unique UL rating of 277 VAC
- Finely graded rated currents
- High configurability (rocker colours, lettering, illumination)
- IP65 with optional cover

Talakaisal Data

# **Applications**

- Power tools
- Medical and laboratory equipment
- Industrial appliances
- Equipment for construction
- Cleaning equipment
- Commercial and household kitchen appliances
- Industrial Power
- Industrial lighting arrays

#### Other versions on request

- White front cover

#### **Approvals and Compliances**

Detailed information on product approvals, code requirements, usage instructions and detailed test conditions can be looked up in Details about **Approvals** 

SCHURTER products are designed for use in industrial environments. They have approvals from independent testing bodies according to national and international standards. Products with specific characteristics and requirements such as required in the automotive sector according to IATF 16949, medical technology according to ISO 13485 or in the aerospace industry can be offered exclusively with customer-specific, individual agreements by SCHURTER.

#### **Approvals**

The approval mark is used by the testing authorities to certify compliance with the safety requirements placed on electronic products. Approval Reference Type: TA35

| Approval Logo   | Certificates  | Certification Body | Description                              |
|-----------------|---------------|--------------------|--|
| _DVE            | VDE Approvals | VDE                | VDE Certificate Number: 40019754         |

| <b>(1)</b>      | CCC Approvals | CCC                | CCC Certificate Number: 2024010307676639 |

#### **Product standards**

Product standards that are referenced

| Organization | Design                | Standard          | Description   |
|--------------|-----------------------|-------------------|---|
| <u>IEC</u>   | Designed according to | IEC 60934         | Circuit-breakers for equipment (CBE)                                  |
| (UL)         | Designed according to | UL 1077           | Standard for Supplementary Protectors for Use in Electrical Equipment |
| GSA<br>Group | Designed according to | CSA C22.2 No. 235 | Supplementary Protectors  |
| <b>(W)</b>   | Designed according to | GB 17701          | Circuit-breaker for equipment   |

## **Application standards**

Application standards where the product can be used

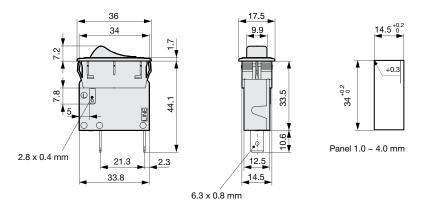

| Organization | Design                         | Standard       | Description   |
|--------------|--------------------------------|----------------|---|
| <u>IEC</u>   | Suitable for applications acc. | IEC/UL 62368-1 | Audio/video, information and communication technology equipment - Part 1: Safety requirements |

#### Compliances

The product complies with following Guide Lines

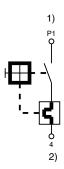

| Identification | Details                        | Initiator   | Description   |
|----------------|--------------------------------|-------------|---|
| C€             | CE declaration of conformity   | SCHURTER AG | The CE marking declares that the product complies with the applicable requirements laid down in the harmonisation of Community legislation on its affixing in accordance with EU Regulation 765/2008. |
| UK<br>CA       | UKCA declaration of conformity | SCHURTER AG | The UKCA marking declares that the product complies with the applicable requirements laid down in the British Amendment of Regulation (EC) 765/2008.  |
| ROHS           | RoHS                           | SCHURTER AG | Directive RoHS 2011/65/EU, Amendment (EU) 2015/863  |
| 50             | China RoHS                     | SCHURTER AG | The law SJ / T 11363-2006 (China RoHS) has been in force since 1 March 2007. It is similar to the EU directive RoHS.  |
| REACH          | REACH                          | SCHURTER AG | On 1 June 2007, Regulation (EC) No 1907/2006 on the Registration,<br>Evaluation, Authorization and Restriction of Chemicals 1 (abbreviated as<br>"REACH") entered into force.                         |

| 16.0 *             | 0.0056                           |
| 18.0 *             | 0.0052                           |
| 20.0 *             | 0.0052                           |
| * 3-Pole max. 12 A |                                  |

#### Effect of ambient temperature

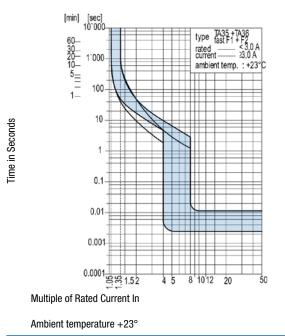

The units are calibrated for an ambient temperature of  $+23^{\circ}$ C. To determine the rated current for a lower or higher ambient temperature, use a correction factor (typical value) from the table below:

| Ambient Temperature [°C] | Correction factor |
|--------------------------|-------------------|
| -30                      | 0.77              |
| -20                      | 0.81              |
| 0                        | 0.90              |
| +23                      | 1.00              |
| +40                      | 1.03              |
| +50                      | 1.04              |
| +60                      | 1.06              |

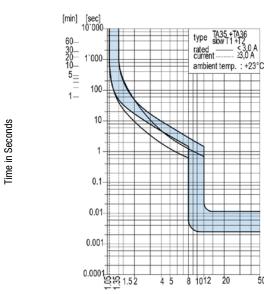

Example: Rated current = 5 A, Environmental temperature = 50 °C --> Correction factor = 1.04, Resulting current = 5.2 A --> Round to next higher rated current: 6 A
